Testing Completed: 03/16/2012

Application Test Details

Capabilities Tested: Networking

Language(s): EnglishNorthAmerica

Result: Failed

Failure Summary: 5.5.2

Exception(s) Applied: None

Action: Please address the comprehensive list of failures below, review the [Windows Phone Application Certification requirements](http://go.microsoft.com/fwlink/?LinkID=183220) (<http://go.microsoft.com/fwlink/?LinkID=183220>) and resubmit your updated application for certification testing. For further assistance, please submit a support ticket using the Support e-Form in the [App Hub Dashboard](http://go.microsoft.com/?linkid=9762121) (<http://go.microsoft.com/?linkid=9762121>).

Windows Phones Tested: HTC HD7, Nokia Lumia 710

Technical

5.5 Content Validation

5.5.2

Requirements

Application content, such as text and visual elements, must be visible and legible regardless of the phone theme. For example, if the phone theme changes from black background to white background, the text and visual elements of your application must be visible or legible.

Expected Result

Test Process Required:

1. Navigate to the Settings page in the app list.
2. Tap theme and change Background to 'Dark'.
3. Launch the application.
4. Verify that the text and visual elements of the application are visible and legible.
5. Navigate back to the theme page under Settings, and change Background to 'Light'.
6. Launch the application.
7. Verify that the text and visual elements of the application are visible and legible.

Comments: STEPS TO REPRODUCE:

Result: Fail

1. Navigate to the Settings page in the app list.
2. Tap theme and change Background to 'Light'.
3. Launch your application.
4. Verify that the text and visual elements of the application are visible and legible.

RESULT:

The application UI text is not legible when viewed in the 'Light' theme.
